

ZERO-EMISSION VEHICLES POLICY

1. INTRODUCTION

Burdur Mehmet Akif Ersoy University (MAKÜ) is committed to reducing its environmental impact and combating climate change by promoting sustainable transportation solutions. The adoption of zero-emission vehicles is key to achieving these goals. This policy provides a framework for the integration of zero-emission vehicles in campus transportation

2. OBJECTIVES

- To encourage the use of zero-emission vehicles within the university community.
- To reduce greenhouse gas emissions resulting from campus transportation.
- To ensure the development of infrastructure necessary for zero-emission vehicles.
- To raise awareness about sustainable transportation options.

3. SCOPE

This policy applies to all university operations, including academic and administrative staff, students, and visitors.

4. POLICY STATEMENTS

- Infrastructure Development:** Electric vehicle charging stations will be installed and positioned at accessible locations across the campus.
- Fleet Management:** The vehicle fleet will be expanded with zero-emission vehicles, and priority will be given to these vehicles in future acquisitions.
- Awareness and Education:** Campaigns will be organized to educate the university community about the benefits of zero-emission vehicles.
- Partnerships:** Collaborations with local authorities and the private sector will be developed to support the adoption of zero-emission vehicles.

5. POLICY STATEMENTS

- University Administration:** Responsible for overseeing the implementation of the policy and allocating the necessary resources.
- Sustainability Coordination:** Responsible for promoting the use of zero-emission vehicles and monitoring the policy's effectiveness.

- c. University Administrative Management: Responsible for the installation and maintenance of charging stations.

6. MONITORING AND EVALUATION

To monitor the implementation of the policy, the university will:

- Track the number of zero-emission vehicles in use,
- Measure changes in transportation-related greenhouse gas emissions,
- Evaluate the usage status of charging stations,
- Review the effectiveness of the policy through annual reports.

7. CONCLUSION

This policy underscores MAKÜ's commitment to sustainability and environmental responsibility. The gradual transition to zero-emission vehicles is a crucial step in reducing the university's carbon footprint and fostering a healthier future.

8. ENFORCEMENT

This policy will come into effect on the date it is approved by the Senate of Burdur Mehmet Akif Ersoy University.
